SUMMARY

Electrical apprentice at M&A Electric Company in Birmingham, Alabama, since July 2024. Started green on a large multi-family job, was one of the few people kept through layoffs, and stayed on through a company ownership transfer. Commercial work under a superintendent with more than 25 years in the trade. Skills come from that mentorship and from independent study. Lockout/tagout certified and designated competent person on site.

EXPERIENCE

M&A Electric Company — Birmingham, AL

Electrical Apprentice · July 2024 – Present

- Started green on a large multi-family job in 2024 and learned commercial electrical work under a superintendent with more than 25 years of experience, through direct mentorship and independent study.
- Retained through layoffs and stayed on through a company ownership transfer.
- Field skills include blueprint interpretation and layout planning, precision conduit layout and installation, panel and disconnect termination, and 277/480V systems.
- Work is aimed at precision, quality workmanship, efficient job execution, labor efficiency, and careful use of material.

KEY SKILLS

- Blueprint Interpretation & Layout Planning
- Precision Conduit Layout & Installation
- Panel & Disconnect Termination
- 277/480V Systems Experience
- High personal standards for workmanship, a process-oriented approach, professional jobsite conduct, and accountability for the work scope

CERTIFICATIONS

- Lockout/Tagout Training Certification (control of hazardous energy) — M&A Electric Company, September 9, 2026. Trainer: Mark Leonard. Designated competent person on site. Valid one year, through September 2027.
- Mobile Elevated Work Platform operator and supervisor, Type 3A and 3B
- Backhoe & Skid Steer Operator Certified
- American Heart Association CPR/AED

EDUCATION

- Colorado Mountain College, Glenwood Springs, CO, 2020–2022
